

## Hill & Partners unveils Interior's for NP Medical and Polartec

Hill & Partners, Inc., the exciting and unique three-dimensional marketing firm, showcased their interior design capabilities for clients Polartec and NP Medical. Known mainly for their presence at trade shows, Hill & Partners has created two permanent installations for these industry-leading companies.

Polartec, the industry leader in technical performance fabrics, based in Lawrence, Massachusetts, required a multifunction build out of lobby space at their corporate headquarters. Faced with the challenge to provide a multi use lobby & meeting space that desperately needed to leverage the successful Polartec brand, Hill & Partners, Inc. created a versatile meeting space to accommodate daily visitors, with break out areas for important high end customers and vendor meetings. All of which are surrounded by key product offerings and award winning customer garments bearing the Polartec brand.

NP Medical, a division of Nypro and leader in medical fluid delivery, needed a clean and contemporary interior design for the entrance to their corporate clean room. The goal was to incorporate a "new fresh look" in the design while maintaining a classic "medical" feel. Hill & Partners solution created a well-branded area for people to walk around, with display areas, viewing windows to the clean room, and corporate graphics- all adding to the engagement of the NP Medical experience.
